

Compact Stores

Thank you for purchasing one of our compact store solutions. These are created to store outdoor resources and provide a solution that children can independently use.

When looked after well according to our guidance below these should last for many years to come and will become a well loved area of your outdoor environment.

Installation of the Compact Store

Our friendly team will assemble and fit the Compact Store on-site for you.

They will anchor the store onto a level, firm surface or base, to avoid the risk of tipping or blowing over in extreme weather. For safety reasons we strongly recommend that the store is anchored to a suitable level surface. If you choose not to have the store anchored, you will be required to sign a waiver at installation confirming that Early Excellence cannot accept responsibility for any damage, injury or loss arising from movement, tipping or weather-related incidents. Any damage resulting from the store not being anchored will not be covered under the warranty.

The wind direction is an important factor to consider when determining the location of the shed. In general, you should aim to reduce exposure to the wind, and of the door side in particular. If you are not using the store, we advise that you keep the doors closed to prevent wind damage.

Using and Taking Care of the Compact Store

The Compact Store is an excellent storage option as it is weather-resistant and requires minimal ongoing maintenance. The store, if securely fixed to the ground and looked after well, should last for years to come.

Our compact stores can be purchased with storage or with a complete resource collection. Please refer to our website for guidance on recommended resources and storage layouts.

Using and Taking Care of the Compact Store *continued*

Please ensure that you have demonstrated to your children how to safely open and use the store. Children should be advised to not stand or sit on the roof of the store as it is not designed to withstand such weight.

Children should be able to independently take storage boxes from the shelves and place them back into position as part of tidy up time. Please note, we advise avoiding placing any heavy items against the walls of the store, as this may cause distortion or breakage. From time to time, you may wish to clean your compact store, we recommend using a hose pipe and a mild detergent.

Warranty information

Each store offers a 2 year warranty which covers defects in the manufacturing or materials from the date purchased.

The warranty does not cover defects resulting from normal wear and tear, including, but not limited to, scuffing, scratches or fractures caused during use, discoloration or fading, rusting, unreasonable use, abuse, negligence, alterations, painting, moving, transporting or relocating the Product, “acts of Nature,” including, but not limited to, hail, any type of storm, flood and fire, and consequential or incidental damages.

The warranty is also subject to the product being used for its intended purpose and maintained in accordance with the guidance provided within this document.

Adult supervision should always be in accordance with your setting’s own health and safety policies and risk assessments.
